

NAVIGATION ADVISORY NOTICE

RIVER NENE

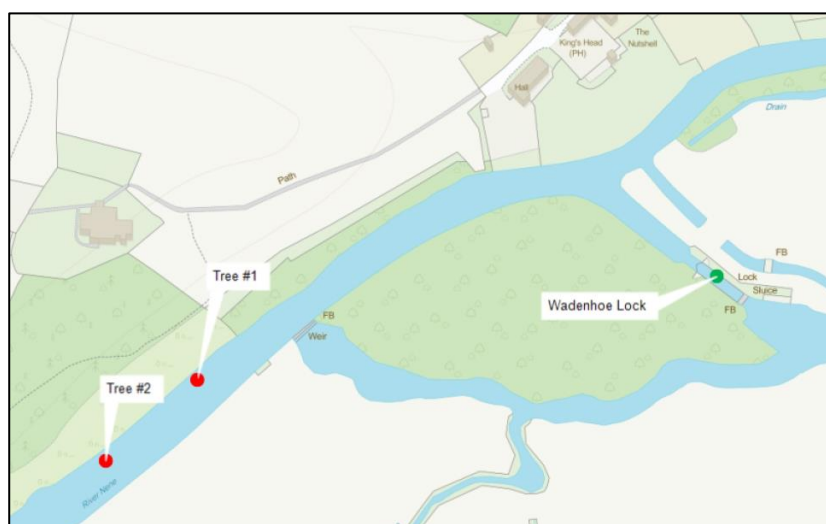

DATE: 25 July 2019 – until further notice

LOCATION: 300 and 360 metres upstream of Wadenhoe Lock

DETAILS:

There are two fallen trees at approximately 300 and 360 metres upstream of Wadenhoe Lock, restricting the width of the navigation channel.

The trees are passable, but we advise caution when navigating in this area.

Vessels heading upstream from Wadenhoe Lock are to give way to those heading downstream in this area.

We are working with the landowners to have these removed in due course.

We apologise for any inconvenience caused.

Irven Forbes
Waterways Manager
25 July 2019

For more information contact us at the Environment Agency on 03708 506 506 between 9am and 5pm, Monday to Friday and ask for the Waterways Team in the Lincolnshire & Northamptonshire Area.
