

NAVIGATION ADVISORY NOTICE

RIVER NENE

DATE: **Until further notice**

LOCATION: **390m Upstream of Upper Barnwell Lock**

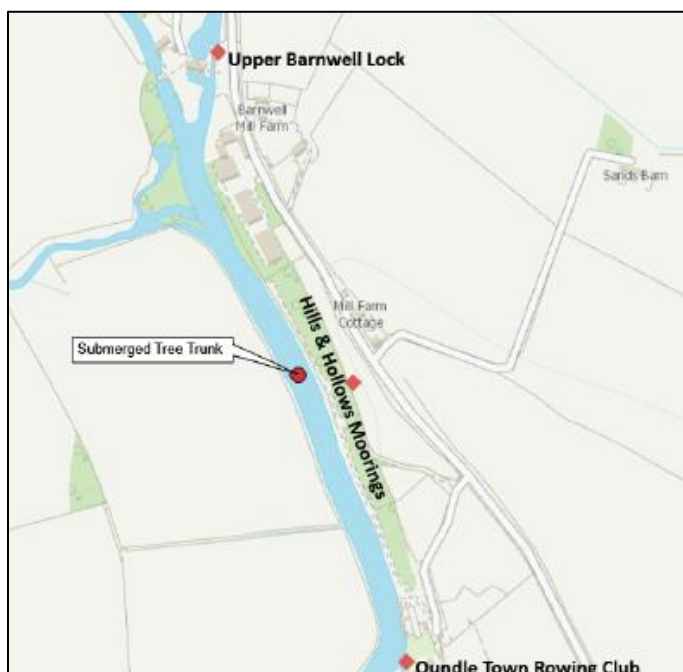

DETAILS:

Boaters are advised that there is a partially submerged tree trunk in the centre of the navigation channel opposite Barnwell Moorings (grid ref. TL03908652).

The obstruction is approximately 390 metres upstream of Upper Barnwell Lock and may be completely submerged at times of higher than normal flows.

Skippers are advised to maintain a vigilant lookout while navigating in this area and to avoid the centre channel until past obstruction.

We are working to buoy-off or remove this once Strong Stream Advice has been cancelled.
