

NAVIGATION ADVISORY NOTICE

RIVER NENE

DATE: 4 June 2021 – Until Rescinded

LOCATION: Wadenhoe Lock

DETAILS:

There has been an issue at this lock earlier today with a mechanical failure of the electric motor. An exact replacement is not currently available however, to keep the lock open and operating, we have installed a motor which operates the lock but only at a fraction of the speed the original motor should run at.

Please be aware this is a known issue which will be rectified once a replacement becomes available from the supplier.

We apologise for any inconvenience this may cause and are working to replace the motor as soon as possible.

For further information contact the Duty Waterways Officer on 07384249151.
